

Dear students,

In order to participate in activities, including courses, at the university, you must comply with the 3G rule (please see the Information for the winter semester 2021/22).

For students who are not recovered or vaccinated, the following information is important:

After the free 'citizen tests' programme ends on 11 October and the test centers close, your access to free tests as a student of Nuremberg Tech will be limited to TWO locations. Until 30 November 2021 you can receive tests at the following test centers:

1. Corona Test Center at the Nuremberg Airport, Flughafenstraße 100, 90411 Nuremberg
2. TZN, Testzentrum Nbg., Färberstraße 45, 90402 Nuremberg.

You can only get free tests at these two locations. More detailed information about the process will be available soon. Please note that reimbursement for tests conducted at other locations is not possible. Students from abroad may also use the offer at these two test centers.

The vaccination bus is coming to Nuremberg Tech

Do you want to be vaccinated without a lot of hassle? The vaccination bus of the City of Nuremberg (the Impfbus) will be on our campus on Tuesday, 12 October 2021 from 10.00 am – 5.00 pm. The vaccination programme is open to all students, employees, and their dependents. Again, more information will be available soon about this programme.
