Updated teaching framework summer semester 2022

Dear students, dear colleagues,

Please note the updated regulations as regards the recommendation to wear face masks on our campus, which is stated in our Teaching Framework under point 3.

Mask recommendation (instead of the previous mask requirement)

At the university, we recommend wearing a mask; specifically, an FFP2 mask is recommended. Under certain circumstances, instructors, within the framework of the university's property rights, may institute a mask requirement in their lectures or courses. Such exceptional circumstances must be objectively justified, such as a very full lecture hall or very close cooperative work, for example, in a laboratory or practical class.

Sincerely,

Christina Zitzmann
