

18. März 2020

Dear University Members,

With immediate effect, the following ban on entering the premises applies on the basis of the attached general ordinance (in German):

Persons who have stayed in an area which was designated as a risk area by the Robert Koch Institute (RKI) at the time of their stay or which was designated as such within 14 days thereafter may not enter universities in Bavaria within a period of 14 days after leaving this risk area.

The risk areas are published on the website of the Robert Koch Institute:

https://www.rki.de/DE/Content/InfAZ/N/Neuartiges_Coronavirus/Risikogebiete.html

If you are affected by the ban on entering, please contact gesundheitschutz@th-nuernberg.de. Please email us again, even if you have already reported that you have been in a risk area.

With best regards

Andrea Gerlach-Newman
Chancellor
