Statement on data protection and confidentiality of your answers

For the survey „TH-Zufriedenheitsmonitor“ (Student Satisfaction Monitor), the Technische Hochschule Nürnberg is working in full compliance with its strict internal data protection legislation and assumes responsibility for data protection in the framework of this survey.

Your answers in this questionnaire are subject to strict confidentiality. Results of this survey will be reported solely in anonymous form, and results will only be presented in aggregate form. From these results it is impossible to trace back answers to any individual respondent.

As for potential publications, the authors will follow the Guidelines for Research Integrity and Good Scientific Practice as recommended, e.g. in Germany, by the German Research Council or the German Economic Association, or in Europe or the USA by the European Economic Association (EEA) or the American Economic Association (AEA). In particular, the authors will comply with the “Data Availability Policy” of the GEA, EEA and AES (as of: 13/11/2107).

If the respondent is under 18 years of age and no adult is present at the time of the interview, please give this statement to your parents, legal guardian/s, or adult companions, requesting their approval.

In any event, your participation is voluntary. No disadvantages will result if you decide not to participate, but the informative value of the survey crucially depends on the participation of all students.

The person responsible for the compliance with data protection regulations is:

Werner Fleischmann
Data Protection Manager
(Datenschutzbeauftragter)
☎ 0911/5880-4250
E-Mail: werner.fleischmann@th-nuernberg.de

What's next?

It is important for us to measure student satisfaction at various stages of the semester. In order to analyze how student evaluations of the TH Nürnberg evolve over time, we will contact you with a similar questionnaire at the beginning of the next semester.

We would very much appreciate it if you could participate in this future survey, too.
