

## Partner Universities of International Business and Technology Plus

All partner universities selected for IBT Plus fit the curriculum perfectly. Students will enhance and strengthen the basis which was laid at Technische Hochschule Nürnberg and gain new perspective from their courses taken abroad by experiencing another system of studying.

IBT Plus students are required to complete 30 ECTS at the partner institution (or at least 20 SWS if the ECTS system is not applicable). Depending on the study programs offered at the university abroad, students may choose business as well as technical courses. Language of instruction is either English and/or Spanish/French. If courses are taught in the language of the host country, a completed B2 level in this language is required.
