Who we are

Nuremberg Institute of Technology

Nuremberg Tech is one of the largest universities of applied sciences in Germany with more than 13,000 students. We are developing ideas for the world of today and tomorrow—and researching to find solutions to society’s most challenging questions. As one of the most research-intensive of all Bavarian universities of applied sciences and a leader in third-party funds, Nuremberg Tech maintains excellent ties with local and international companies and is an important driver of innovation in the Nuremberg metropolitan area. The Nuremberg Institute of Technology is a global player with partnerships with 160 institutions of higher education around the world.

The wide variety of fields of study and our practical orientation allow us to pursue the technical, economic, societal and creative challenges of our time and to provide our graduates access to excellent professional prospects. Twelve Faculties offer accredited bachelor’s and master’s degree programs, including part-time programs for professionals, certificate programs and dual system options.

Faculty of Business Administration

The Faculty of Business Administration is one of the leading institutions for applied management in Germany. More than 50 professors with many years of professional business experience teach and research at the interface between science and practice. The Faculty offers German and English language bachelor’s and master’s programs to currently more than 3,000 students. A modern learning environment contributes to an excellent quality in teaching.

M.Sc. in International Finance and Economics

What our program offers

Our students focus on economics and/or finance and are equipped with a comprehensive, advanced and up-to-date knowledge of international finance and economics in an academic, yet practice-oriented approach. Our students actively seek an international cultural atmosphere and are eager to spend some time of their life abroad. High academic ambitions and the capacity for hard work are the driving factors for them to embrace this demanding commitment.

Highlights

- Seminars in small groups
- 100% is taught in English, additional German courses offered as electives
- High practical relevance established through close cooperation with companies and banks
- Professors with proven track record in business, banking and/or international institutions
- Internship or exchange semester possible
- Multicultural student group with approx. 70-80% international students
- Start in summer or winter semester
- Student activities include potential participation in CFA Research Challenges, Field Trips to multinational banks etc.

Career outlook

Our alumni are employed at international companies (e.g. financial services, financial institutions, banks, insurance companies, asset management), consulting and auditing firms as well as public entities (e.g. organizations for economic development). Among other things, they pursue careers as managers or specialists in banks, insurance companies and/ or fintechs, as investment bankers/capital market experts, asset/portfolio managers, capital market analysts, PE/VC investment managers, treasurers, consultants, and financial managers or experts in industrial companies.

Program structure

The M.Sc. in International Finance and Economics is designed as a 3-semester program. Successful completion requires students to earn a total of 90 ECTS credits. This program offers a comprehensive, integrated curriculum in finance and economics. Mandatory courses teach the essentials in both areas while elective courses allow students to specialize according to their interests. The program is taught in English.
