

## Declaration of insurance for grant recipients in the framework of an Erasmus+ studies

All students of Technische Hochschule Nürnberg Georg Simon Ohm sponsored by the Erasmus+ programme are obliged to take out sufficient insurance cover for the entire period of the Erasmusmobility (including arrival and departure). The individual insurance situation must be clarified conclusively and comprehensively before departure. This includes in particular

- health insurance
- liability insurance
- accident insurance
- life insurance (recommended)
- travel insurance including repatriation from abroad (recommended)

The **health insurance** must be valid for the entire duration of the stay in the destination country. With the European Health Insurance Card, the participant's national health insurance generally provides basic insurance coverage for the stay in another EU country as well. However, the coverage provided by the European Health Insurance Card or a private insurance company is often insufficient, especially if repatriation or special medical procedures are necessary. In such cases, a supplementary private insurance may be useful and important.

For the duration of the studies, a **liability insurance** policy valid in the respective country must be taken out.

For the duration of the studies, an **accident insurance** policy valid in the respective country must be taken out.

All participants in the Erasmus+ programme are obliged to inform themselves sufficiently about **further insurance coverage required in the host country** and to take out an appropriate insurance policy if necessary.

In the Erasmus+ programme it is possible for scholarship holders to benefit from the DAAD group insurance (*tariff 726*), which includes all necessary insurance types.
