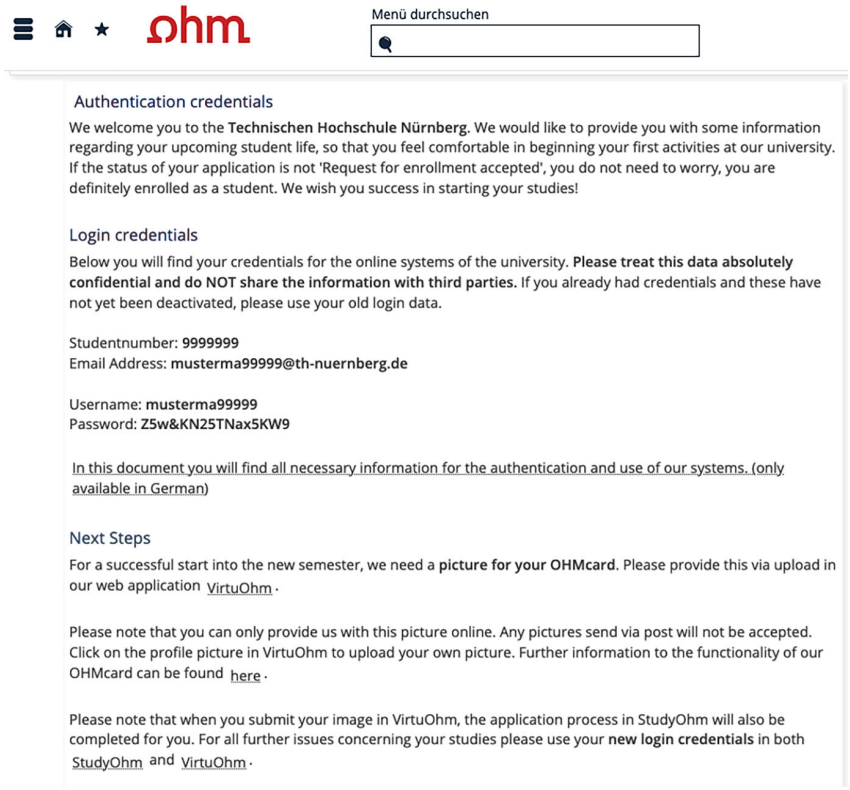
User identification for the entire university



Menü durchsuchen

Authentication credentials

We welcome you to the **Technischen Hochschule Nürnberg**. We would like to provide you with some information regarding your upcoming student life, so that you feel comfortable in beginning your first activities at our university. If the status of your application is not 'Request for enrollment accepted', you do not need to worry, you are definitely enrolled as a student. We wish you success in starting your studies!

Login credentials

Below you will find your credentials for the online systems of the university. **Please treat this data absolutely confidential and do NOT share the information with third parties.** If you already had credentials and these have not yet been deactivated, please use your old login data.

Studentnumber: **9999999**
Email Address: **musterma99999@th-nuernberg.de**

Username: **musterma99999**
Password: **Z5w&KN25TNax5KW9**

In this document you will find all necessary information for the authentication and use of our systems. (only available in German)

Next Steps

For a successful start into the new semester, we need a **picture for your OHMcard**. Please provide this via upload in our web application VirtuOhm.

Please note that you can only provide us with this picture online. Any pictures send via post will not be accepted. Click on the profile picture in VirtuOhm to upload your own picture. Further information to the functionality of our OHMcard can be found here.

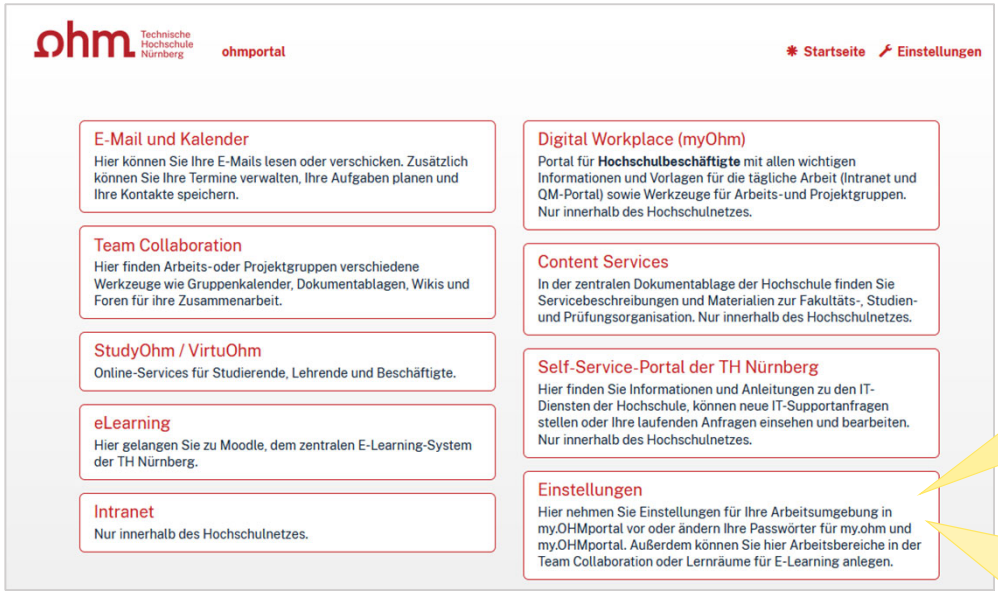
Please note that when you submit your image in VirtuOhm, the application process in StudyOhm will also be completed for you. For all further issues concerning your studies please use your **new login credentials** in both StudyOhm and VirtuOhm.

- User ID = user name + password
- Personal ID can be found in your applicant account in StudyOhm
- Important: One user name & three passwords!
- Email address = user name@th-nuernberg.de

Important:
The university contacts students exclusively via their university email address!

University user identification

Changing the passwords



Important:

One user name - Three passwords!

Password for the Windows domain MSAD = university PCs and eduroam wifi

Can only be changed from a university-domain PC, e.g., in a computer lab

- STRG+Alt+Entf (Ctrl+alt+delete)
- *Kennwort ändern* (Change password)

Password for my.ohmportal = email and calendar

Can be changed in the Ohmportal after you log in.

- https://my.ohmportal.de
- *Einstellungen* (Settings) -> *Passwörter* (Passwords)

Password for my.ohm = VPN, Online Services, Moodle …

Can be changed in the Ohmportal after you log in.

- https://my.ohmportal.de
- *Einstellungen* (Settings) -> *Passwörter* (Passwords)

You must be connected to the university network to change your passwords.

Accessing central IT services

You can access many of the IT services at the university:

- without VPN: from the university network (= PC on campus connected to the LAN)
- with VPN: from the wifi on campus and off campus

On the ZIT's web pages you find

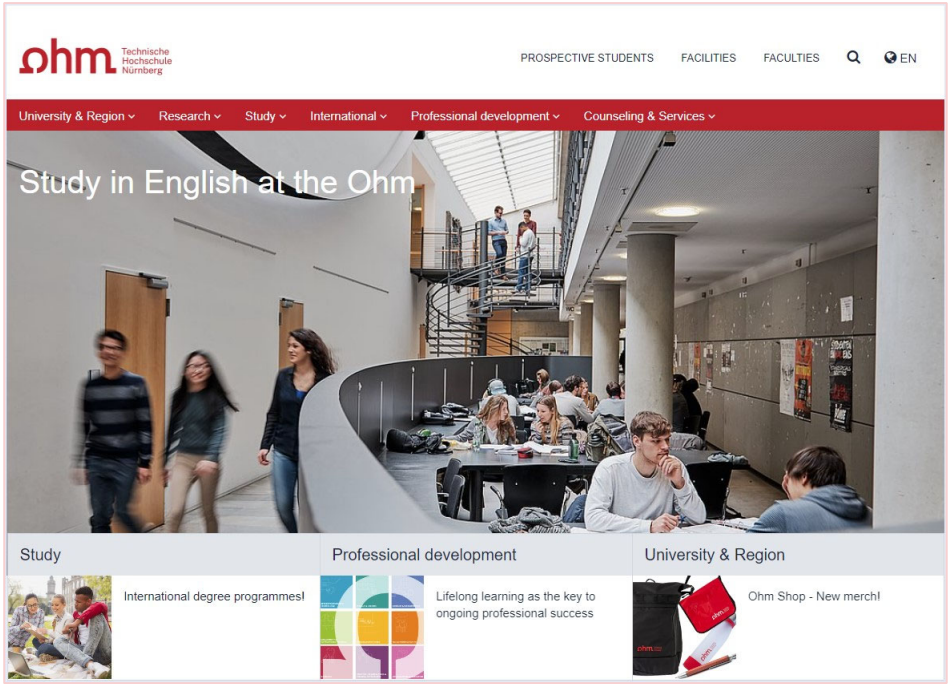
- instructions for setting up a VPN connection

➢ https://www.th-nuernberg.de/einrichtungen-gesamt/administration-und-service/zentrale-it/netzwerk/

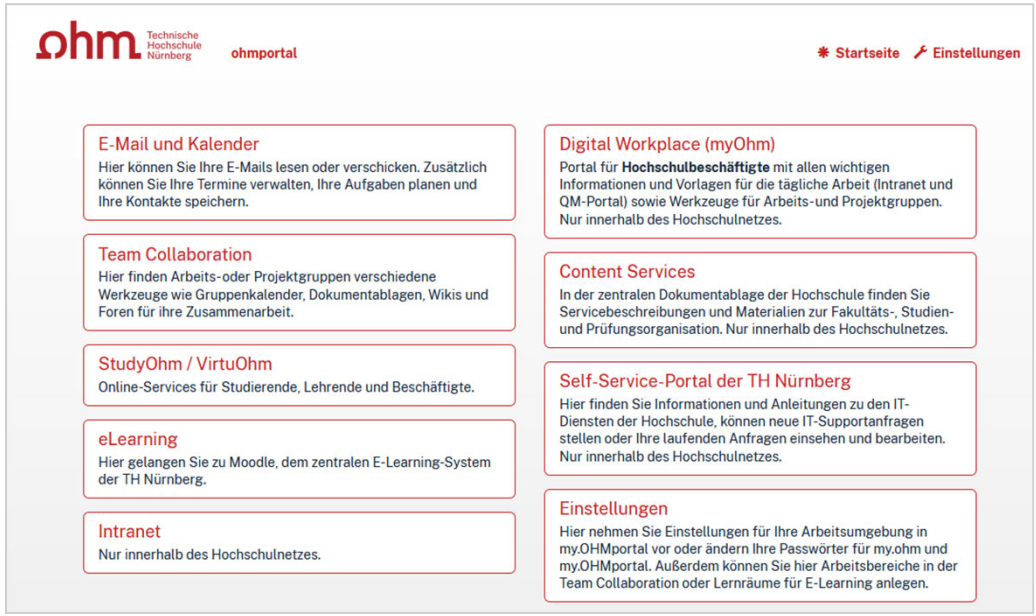
Please only connect the VPN when you need it and disconnect when you do not need to be using it.

Central portal (my.ohmportal.de)

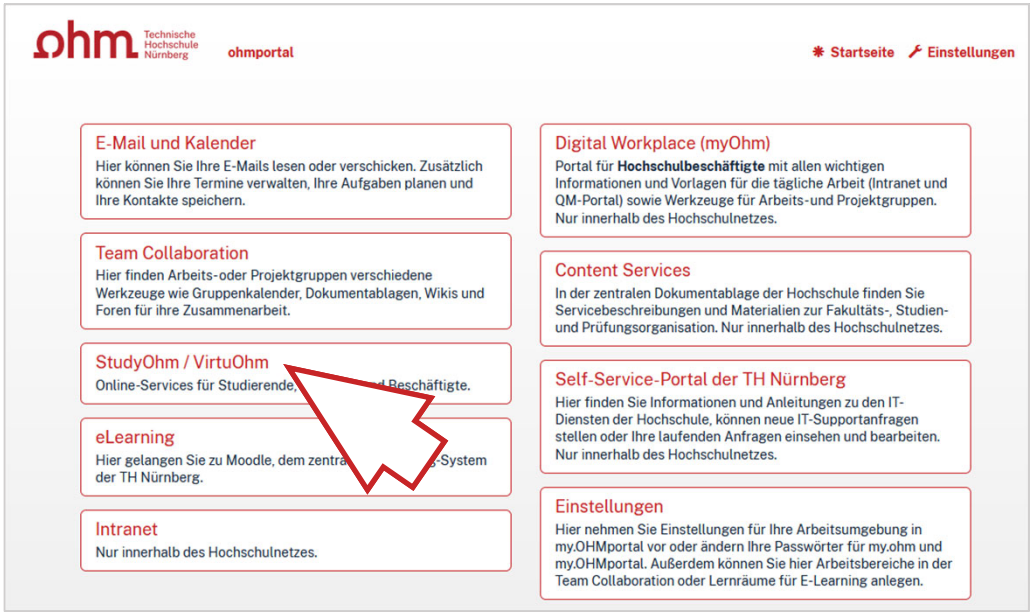
https://www.th-nuernberg.de/en



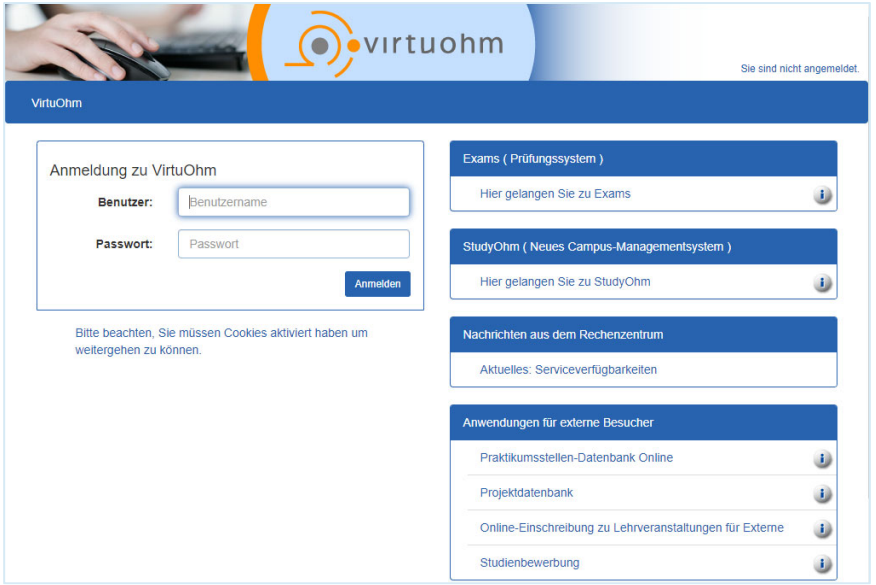
https://my.ohmportal.de



Online Services: StudyOhm/VirtuOhm

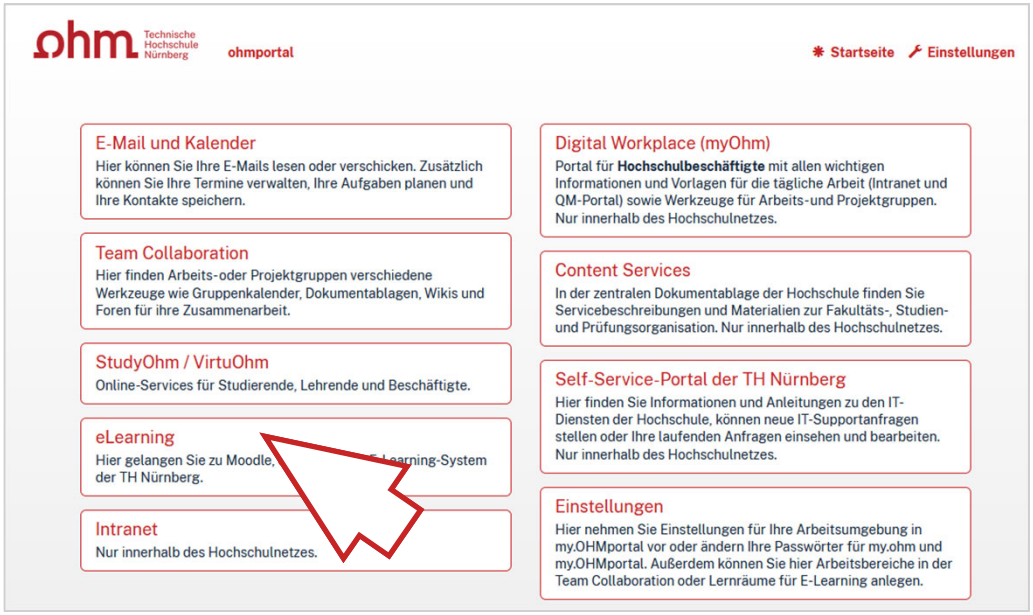


- Registering for courses
- Registering for exams, grade requests and transcripts, registering for the next semester, and confirmation letters
- Important information about your OHMcard

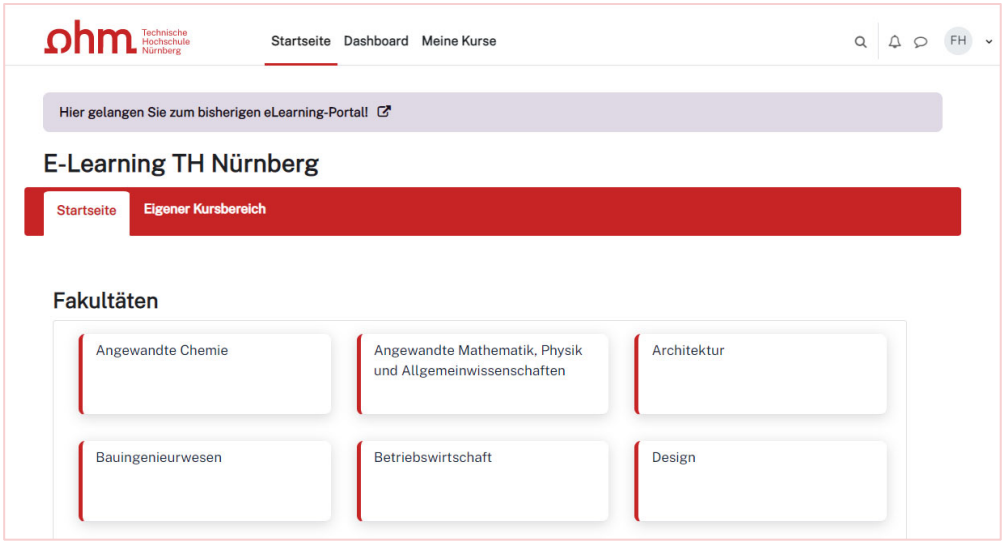


Access on the internet
No VPN

eLearning Moodle

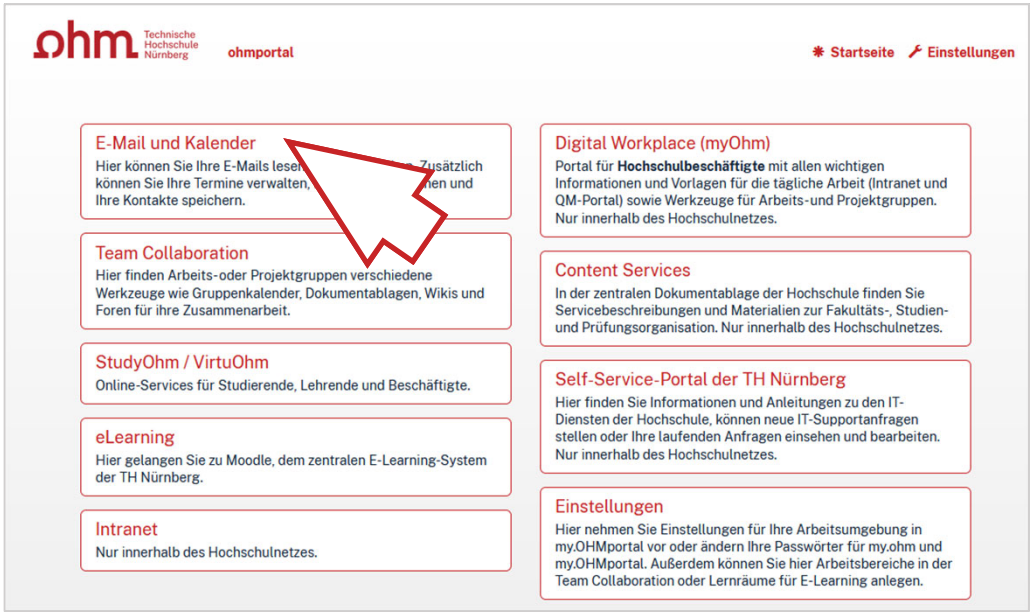


- Central OHM e-learning portal:
- Studying via electronic media (moodle)



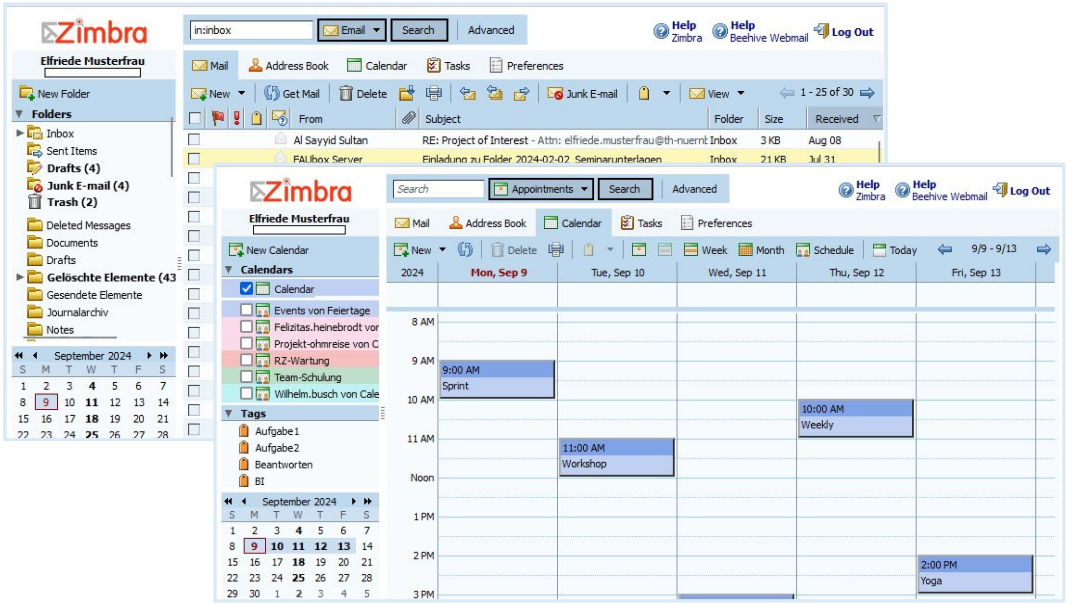
Access on the internet
No VPN

Email and calendar

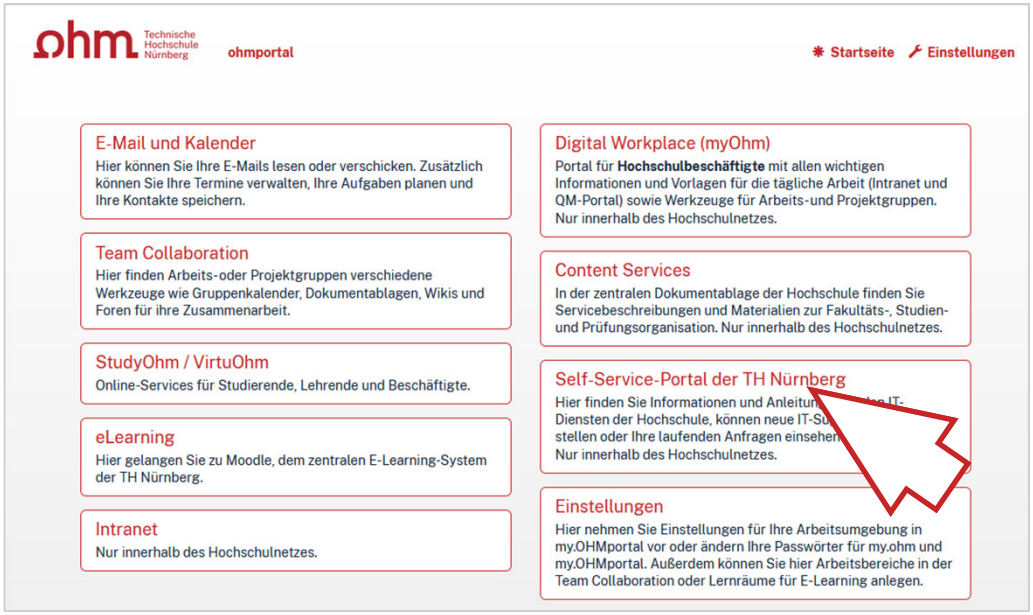


Access on the internet
No VPN

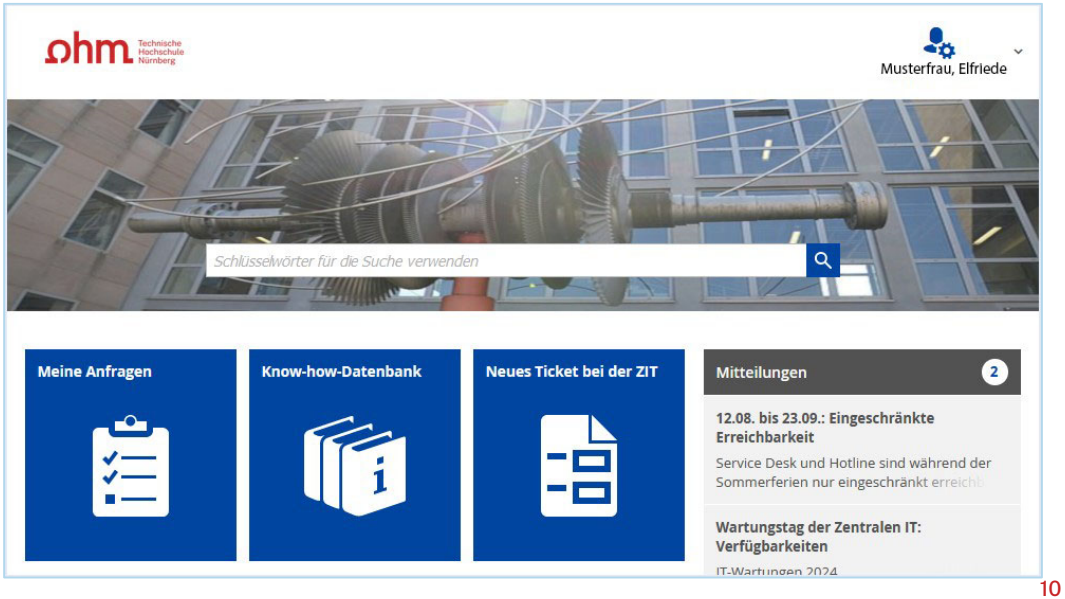
- Email retrieval from the portal (= webmail client)
- You can also configure an account on your PC or smartphone.



ZIT’s self-service portal



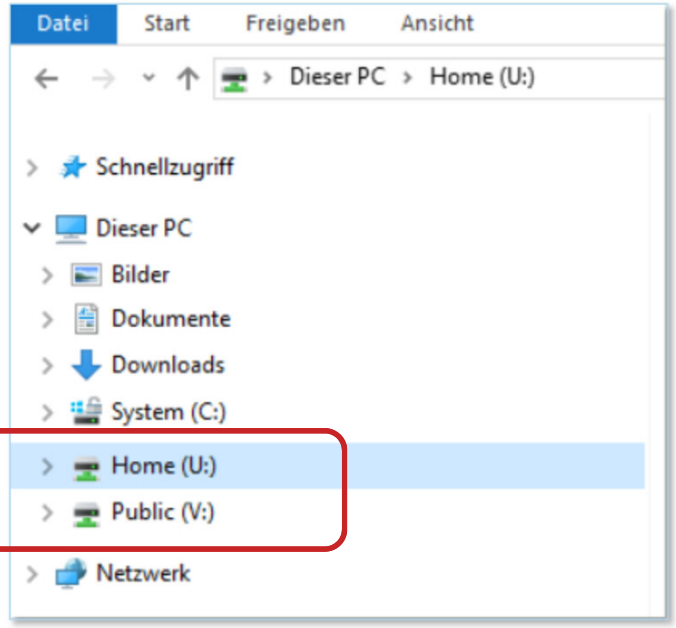
- Information about and instructions for the IT services at Nuremberg Tech
- One way that you can submit a help-ticket for the ZIT



Access from the university network

Via wifi on campus or off campus, you will need to use the VPN.

File storage and transfer (internal, external)



Access from the university network

Via wifi on campus or off campus, you will need to use the VPN.

Windows network: MSAD (internal)

- Storage of your own files in the home directory
- Possible storage location for lecture notes
- Exchange and project folders

M365/OneDrive

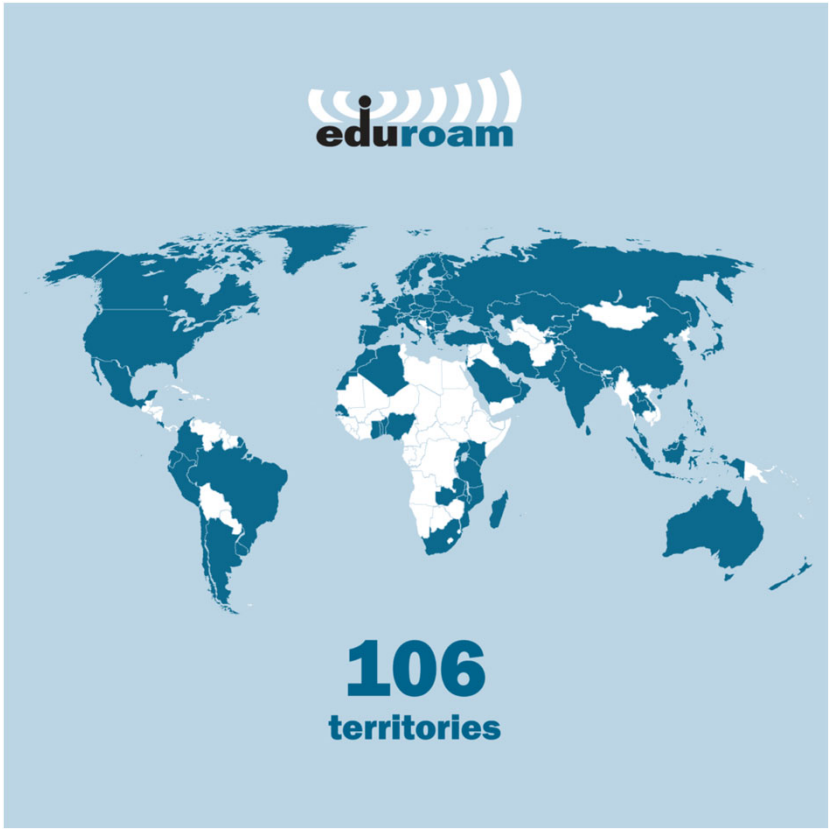
- Storage of your own files and group work

File storage outside of the university network

- **FAUbox** = Sync & share service of the FAU
- **Gigamove** = Exchange platform of the RTWH Aachen for large files

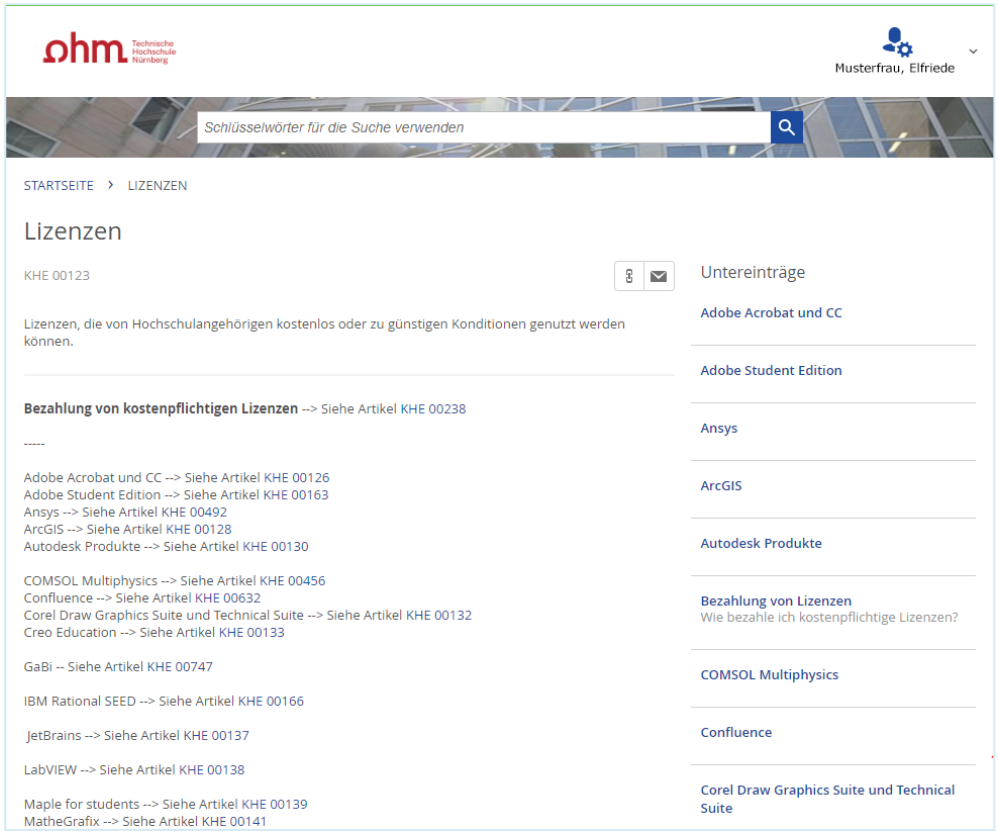
Information about these possibilities is available in the self-service portal.

Access to wifi (WLAN) - eduroam



- With eduroam, the university wifi, you can access the internet via hotspots at universities around the world.
- After setting up eduroam on your PC or mobile device, you will have access to the internet practically anywhere on campus.

Software/Campus licences



- Low-priced software for students via campus licences, e.g. Microsoft 365 or Matlab
- A list of the campus licences is available in the self-service portal at

➢ https://self-service.ohmportal.de/tas/public/ssp/content/detail/knowledgeitem?unid=16619ed1-f540-4029-8800-031134a25bf1

MS Teams

Lectures, online conferences, calls and chats

Ordering and activation

- Before you can use MS Teams, you must activate it in the StudiSoft portal.
- ➢ https://www.studisoft.de
- Use your personal my.ohm user information to log in to StudiSoft.

Registering with MS Teams

- When you register, you will receive a university ID for Teams.

Instructions for registering and using MS Teams are available on the Self Service Portal.

Zoom

Telephone and video conferencing

All university members can use Zoom to conduct lectures or events or for working in groups and to organise conferences.

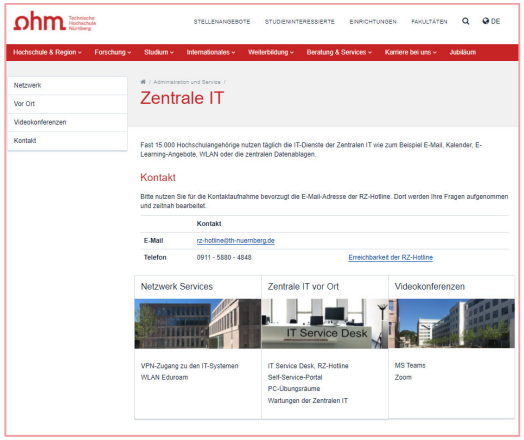
Logging in

- Log in on the central platform:
- ➢ https://th-nuernberg.zoom.us/
- Use your personal my.ohm user information.

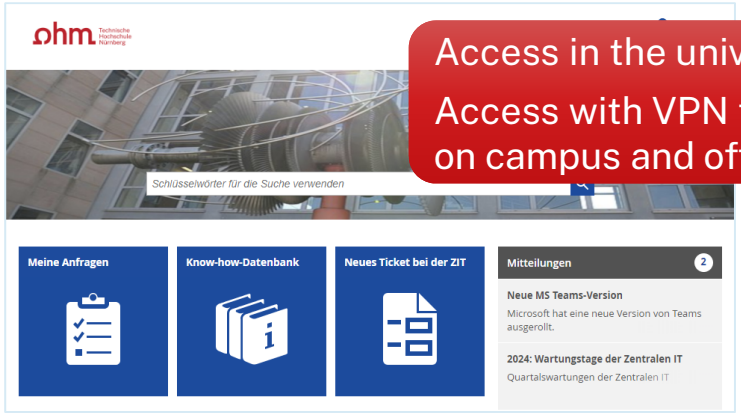
Student PC rooms

- Eight PC labs with around 170 PCs in the ZIT/library building complex
- Access to the internet via the German National Research and Education Network (DFN) only for research and education
- Additional PC rooms are also provided by the Faculties
- Please bring your own headphones, if you need them

Information



Access on the internet (without VPN)



Access in the university network

Access with VPN from the wifi on campus and off campus

On our web pages

- ➢ https://www.th-nuernberg.de/en/facilities/administration-and-services/central-it/
- ➢ Instructions for wifi and VPN
- ▪ Information and contact information
